

PLANNING MY DAY IN THE OFFICE

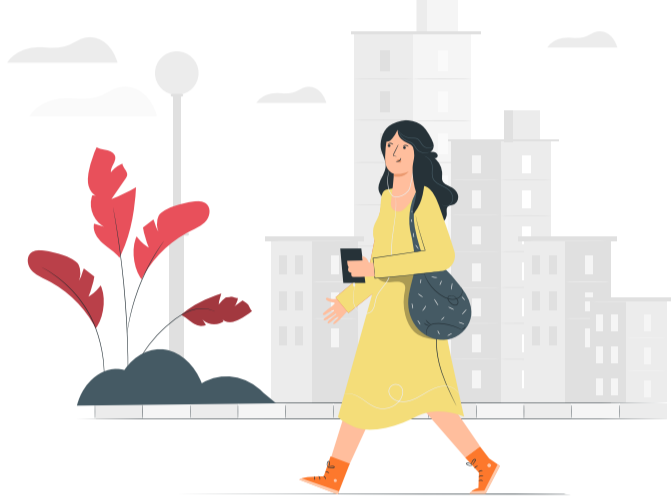

I can now relax as I know I have a safe space to work from

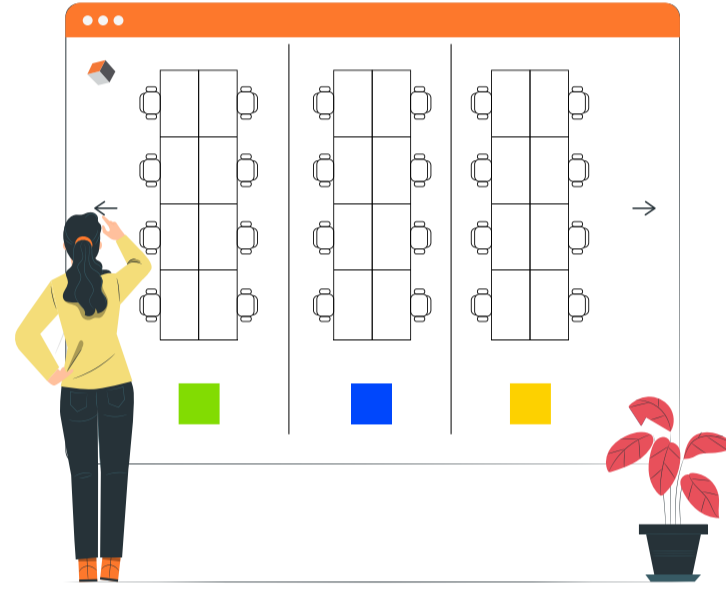

I book a desk using my Rendezvous mobile app

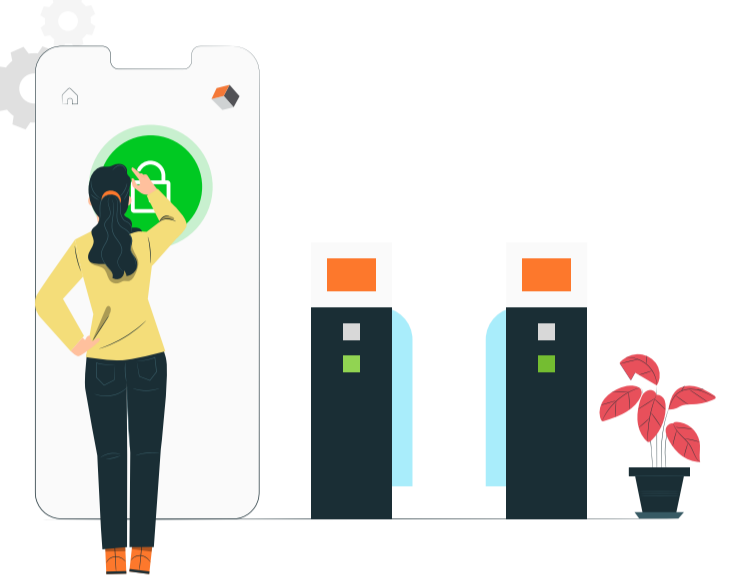

I receive an email confirmation/QR code and the booking is in my Outlook calendar

I travel to the office

I locate my desk using digital signage.

I use my QR code for contactless access to the office

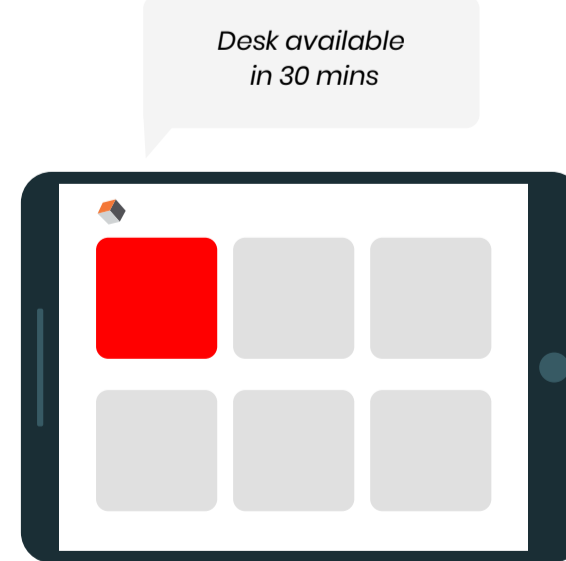

I check into my desk by scanning the QR code or using a desk sensor panel

A very productive day at work

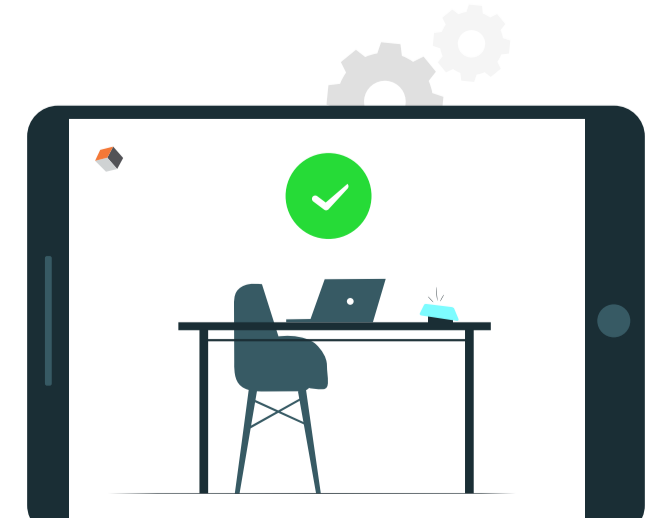

Rendezvous automatically sends a cleaning alert

My desk is automatically made unavailable on the digital signage screen

I now check out by scanning the QR code

Desk cleaned and released to Rendezvous
